excursion to Tartu

First Day

Welcome and
presentation of the
schools

Following Days

Group work on
project activities in

mixed international
groups

Recreation and Socialisation

Food cooked in the
school kitchens and
games together

Welcome Activities

The students from all the participating schools presented their learning communities to the others together with information about their home countries and cities.

During the first morning the learners and staff visited the hosting school which boasts modern and well-equipped classrooms. The school in Valga also offers numerous vocational training courses. In the evening the students from the nutrition course prepared a delicious welcome meal on the school premises as a way of greeting all the project participants.

During the following days the learners were divided into 4 groups that were composed of mixed nationality participants and an escape room activity was organised with the aim of deepening knowledge and promoting collaboration.

Cultural activities were not lacking and included a visit to Valga and to the Museum of Local History and Culture. An interesting trip was organised to Tartu, the second great city in Estonia and home to the Estonian National Museum, which contains and illustrates the history and culture of Estonia in very modern surroundings.

As can be seen from the newsletter photographs, playful and social activities were plentiful!

FURTHER ACTIVITIES

Other fun but beneficial activities during the following days included the students taking on the role as teachers and planning CLIL lessons to deliver to the other participants.

The teachers revised the various stages of the project and discussed some aspects of the next meeting which is to take place in Turkey in May 2023.
