CLIL IN EDUCATION

7th - 10th November 2022

The Istituto Scalcerle in Padova was the hosting venue of the fourth staff meeting for the **CLIL in Education** European funded Erasmus+ project **C4**, which was held this autumn in the month of November.

During the work days lesson plans that had previously been prepared were revised and edited by the participating teachers before being delivered. The structure and layout of all the lesson-plan attachments were also redefined and improved to help make the documents more complete and easy to understand.

The Spanish and Turkish colleagues delivered examples of **CLIL lessons** that generated further stimulating discussion and a useful exchange of experiences. This was followed by the organisation of **job-shadowing activities** in various classes of the school.

Cultural activities

Afternoon activities included trips to some of the city's most well-known historical monuments and buildings, such as its university, one of the oldest and most prestigious in Europe, a visit to Galileo's anatomical theatre and to the Scrovegni Chapel, which has been declared a World heritage Site by UNESCO. Other iconic city visits included 'Palazzo della Ragione' and the unique so-called square, one of the 10 largest in Europe, named 'Prato della Valle'.

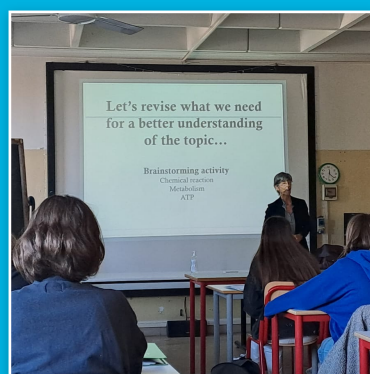

Recreational activities

Some work days concluded with culinary and recreational evenings in the nearby Spa town of Abano.
